Complementary food for small dogs

Crancy Dental Snack is a complementary food that you can use as a treat for your dog.

Thanks to calcium micro-granules and minerals it performs an abrasive action which prevents the accumulation of dental tartar and keep clean teeth and healthy gums.

Bentonite help the cleaning of teeth for its abrasive capacity and intestinal balance thanks to the cation exchange capacity.

Composition: Cereals, Derivatives of vegetable origin, Meat and animal derivatives, Oils and fats, Minerals, Sugars.

Analytical components: Moisture: 16%; Crude protein: 15,4%; Crude fat: 3%; Crude fibres: 0,8%; Crude ash: 5,8%; Calcium 1,6%.
